

# CLIP-TRICK

Colourful and diverse → With CLIP TRICK the name says everything: The diversity of colours and versions, ease of installation and sunny appearance are the persuasive advantages of this system. Floors, departments or functional areas can be denoted by different colours, making them easily comprehensible even for children and the more elderly. CLIP-TRICK fastening elements are available in 16 different standard colours.

- variable
- easy to assemble
- simple to update

\* silver-anodized oder silver painted.

Variations in colour resulting from the printing process or production process (plastic injection-molding, painting on different materials, screen printing, etc.), shall not be accepted as a reason for complaint.

Inserting the sign information and installation

**1**  
Once you have prepared the installation aid and drilled the holes, insert the CLIP-TRICK corner brackets in the installation aid.

**2**  
Insert the washer and fasten to the wall with a screw\*.

**3**  
Remove the installation aid and then fit the spring plate.

**4**  
Place the back panel and the transparent foil in position. If direct sign information is used, place only the glass panel in position.

**5**  
Fit the front glass panel.

**6**  
Slide the cover cap over the completed sign until it locks into place.

**7**  
To remove the transparent foil, insert the key in the gap at the back until it locks. The cover can now be removed without difficulty. It is impossible to open without the key.

\* Assembly material for wall mounting (screws and dowels) not included in delivery.
